TIPS

Thanks for choosing vehicle multimedia audio & video series products from our company. Please read this user manual carefully before use and keep it properly for future reference.

To avoid human injury or other hazards, please read the following precautions carefully before installation.

Please follow the instructions as below, or your machine may be damaged, for which we assume no responsibility.

1. Avoid water or other liquids coming into this product.
2. Do not place or install this product in humid and high-temperature places exposed to direct sunlight; prevent this product from touching chemicals for a long time and prevent fire or other hazards; otherwise, this product may be damaged.
3. Replace the battery for remote control regularly to ensure normal operation. In case of battery leakage, wipe it with dry cloth or paper and replace the battery. Do not place the battery on metal objects and keep it out of the reach of small children to avoid any accidents. Please comply with the local laws and regulations in using battery.
4. If liquid crystal splashes due to sudden LCD breakage, prevent it from touching your skin as well as getting into your eyes and mouth and contact the maintenance man as soon as possible to replace the LCD. Comply with local laws and regulations in replacing LCD.
5. Do not crush, press or scratch this product with hard

objects. Clean its surface with dry cloth and paper towel; do not wipe LCD screen with dry flax or paper; to avoid any damage to this product.

6. If any abnormalities occur during operation, turn off the power immediately and refer to “Trouble Shooting” for solving the problems; if the trouble can not be cleared, contact dealer or local maintenance station.

7. Replace fuse with a new one in the same size (current grade); it is dangerous to use different fuses or wires, as damage may be caused.

Installation Location

Do not install this product in the following positions:

- a. In the position where driver's view is blocked.
- b. In the position where operations of steering wheel, gear lever and brake pedal may be affected.

INSTALLATION

1. Professional is required to install this product.
2. If you try to install it by yourself, please strictly follow the installation instructions and connection diagram, as improper installation may cause a fire.
3. Turn off or pull out the ignition key before installation, as battery current leakage or short circuit may be caused when the engine is running.
4. Make sure not to damage any pipe or wire and electronic parts of fuel cell during installation; otherwise, it may cause fire. Be careful not to damage any parts of car when digging holes on instrument panel.
5. Do not use nuts or screws to connect safety devices such as steering connection device, fuel supply or brake system, as it may cause a fire or accident.

Condensate water: In case of environment and temperature change, optical head of mechanism may produce water vapor which then forms water drop causing failure of loading disk. To restore to be normal, just turn off the product until it become dry.

SAFETY PRECAUTION

You are recommended to read all the instructions carefully before installation and have it installed by a professional dealer of auto audio devices.
